

## Make Your Body Move

Spain

Two o'clock  
You're all alone  
Starting from across the room

Come right here  
Girl you know  
Just what our love can do

We don't have  
To take it slow  
Talking all the whole night through

I just want  
To take you home  
And make your body move

Make your body move

Girl you'll feel  
Your loneliness  
Drifting away from you

And you'll see  
This love exists  
We found a love so true

Now we have  
Happiness  
It's what our love will prove

I just want  
To kiss your lips  
And make your body move
