

# Love Is All

Spandau Ballet

You can't always be  
what you wanted to me  
and with every drop of rain  
you can't hide  
but with all that we can feel  
and with time  
you see what's real  
it's by your side  
oh by your side

but you always call me back  
and i come running home  
and then you called my name  
it feels like love  
has never changed

love is all that we know  
so why don't you show  
that love can change your heart  
it's all that we breathe  
so why don't you see  
that love can change your  
love can change your heart

i know that i believe  
that for everyone we need  
just a little hope  
so we can find  
the answer to our prayers  
now you know i'm standing there  
right buy your side  
oh by your side

and in life we play the game  
where nothing stays the same  
but when you call my name  
i know our love will never change

love is all that we know  
so why don't you show  
that love can change your heart  
it's all that we breathe  
so why don't you see  
that love can change your  
love can change your heart
