

Better Side of Me

Sparks The Rescue

I met this little girl
And she seemed so sweet
But now we're buying 40s
Drinking them on the street
It's just you me and nicotine make three
(She's the better side of me)

She buys her time with a hourglass
And she knows her future
But forgets the past
I'm pouring gasoline
While she lights the match
Well she...
(She's the better side of me)

So pretty and so mean
Raising hell since she was 16
Now she's into cocaine
Like everything is ok
She's the better side of me

Gave her my heart in a paper bag
We're only making love
When she's on the rag
And it's a problem now
So I better step back and see
(She's the better side of me)

So pretty and so mean
Raising hell since she was 16
Now she's into cocaine
Like everything is ok
She's the better side of me
Selling me her bad dreams
Say they're all about me
An idle mind that dreams sometimes
She's the better side of me

We're stealing stars
It's been the cure to my disease
You played my heart
You are the better side of me
The better side of me
The better side of me
The better side of me
The better side of me
The better side of me

Spose, spose
Yeah let's go
She had my urine clouded, my schedule clear
She brought the beer, and had me sold just like an auctioneer (SOLD)
When everybody sprint for the woods,
Like anybody would when the cops were here
That girl just lit another blunt, and told me not to fear
The we hopped in the whip, drove to the shore
Took a bunch of drugs, then we puked on the floor

Then we crashed on the beach
I woke she was gone
Vanished, like smoke in a bong
It was clear that she was on to the next dude
Left me for that guy from sparks the rescue

So pretty and so mean
Raising hell since she was 16
Now she's into cocaine
Like everything is ok
She's the better side of me

Selling me her bad dreams
Say they're all about me
An idle mind that dreams sometimes
She's the better side of me
