

Forever Young

Sparks

I'm gonna beat the devil and stay forever
(Forever young, forever young)
I can't be pushed around and I won't get older
(forever young, forever young)
Forever young, forever young, tonite and every nite
Forever young, forever feeling right
I'll sit and watch the history books get thicker
(Forever young, forever...)

I just refuse to be what I'm not this instant
(Forever young, forever young)
I'll meet a million girls in a million places
(Forever young, forever young)
Forever young, forever young, tonite and every nite
Forever young, forever feeling right

You say I'm playing God, but you're old and wasted
(Forever young, forever...)

Bright lights will burn forever and I'll still see them
(Forever young, forever young)
I've broken every rule and I'll break this last one
(Forever young, forever...)
