

How Are You Getting Home?

Sparks

How are you getting home
It's on my way, so let me take you home, home home sweet home

How're you getting home
How're you getting home
How're you getting home, I'm curious
No, I'm really only curious
How are you getting home

Get away from here
Let's get away from here
I hope you live a million miles away
I could take you half way home tonight
Tomorrow you'll be home
Tell me how you're getting home

We got one thing in common baby
We're too good to be at this party
We're too good to be anywhere but
Inside my car

How are you getting home
It's on my way, so let me take you home,
Home home sweet home

Don't let me push you baby
What I like is your independence
Real spunk, real independence
And there's my car

How are you getting home
It's on my way, so let me take you home, home home sweet home
