

I like you and you like me a lot
And we do those things that can make us feel hot
Then we join some friends, all of them are all right
and we talk a while, then we climb in our cars
What a night, we all drive into town
Where we'll park our caars, and meet the rest of our friends
At a place that's called, I forget what it's called
But it's really great, and all of our friends will be there

CHORUS

Popularity

Popularity

I like you and you like me a lot
And it's nice to be all alone with you too
But it's also nice being out with our friends
'Cause they're all right, maybe that's why we're friends

CHORUS

I feel great, but it's getting real late
So I'll drive you home and you'll slide up real close
I'm so glad we met, and I like you so much
And I'm also glad that I got all those friends

CHORUS
