

# Chevy Thunder

Spector

Not coming back but I can't stop waiting  
Give me a minute while my heart stops breaking  
Give me a minute while I fix my tie  
Give me a minute while I take my life

Back into my own hands  
There's a Chevy Thunder on the drive tonight  
I'll take your father's car  
And I'm not coming back alive

You know you could've been here, honey  
Sitting by my right-hand side  
Tonight, I'll take your father's car  
And drive, drive, drive

And whatever I never could ever let you go  
I'm a lover above a ba-beating heart below  
I'm riding, I'm riding as fast as this car goes  
Chevy Thunder  
Chevy Chevy Thunder

Once in a while, not twice in a while  
When heaven brakes I see you smile  
I know it hurts, I know it hurts  
I know

I'm not what you want  
You fell in love with an idea  
And I was never never never never enough  
Tonight I'm riding out of here

You know you could've been here, honey  
Sitting by my right-hand side  
Tonight, I'll take your father's car  
And drive, drive, drive

And whatever I never could ever let you go  
I'm a lover above a ba-beating heart below  
I'm riding, I'm riding as fast as this car goes  
Chevy Thunder

And whatever I never could ever let you go  
I'm a lover above a ba-beating heart below  
I'm riding, I'm riding as fast as this car goes

There's so only many ways to wake up, to wake up, next to you  
But every single time feels like I'm waking up anew

Just give me one little piece of your heart  
And I swear I will be true  
Just give me one little piece of your heart  
And I'll break mine up in two, for you

And whatever I never could ever let you go

I'm a lover above a ba-beating heart below  
I'm riding, I'm riding as fast as this car goes  
Chevy Thunder

And whatever I never could ever let you go  
I'm a lover above a ba-beating heart below
