

Don't Make Me Try

Spector

You're lying in your bedroom in my mind,
and he's probably switching off the light,
I miss you!
These emails I draft but never send
Works of art you couldn't comprehend,
I miss you!

Don't make me try,
Don't make me try,
Don't make me try!
Not in front of them,
Not in front of them,
Not in front of them!

Your flat is only half a mile away,
I meant every single word I didn't say,
I miss you!
This city's always heavy on my mind,
I'd steal the Chevy in the parking lot
outside,
I love you!

Don't make me try,
Don't make me try,
Don't make me try!
Not in front of them,
Not in front of them,
Not in front of them!

Don't make me cry,
Don't make me cry,
Don't make me cry
Not in front of him,
Not in front of him,
Not in front of him!
