

7 Zark 7

Spiderbait

Take away the pain
Take away the pain
Take away the pain
Take away the pain I suffer every day

Give me everything
I want everything
Give me everything
I want everything that I'm supposed to hate

Feed it 'till it cracks
Smash it through the bridge
Bust it up and (something)

Take me to the edge
And I will take you back
Crack it up
And try to crack it down but I am just about too late
