

Daisy May

Spiderbait

I think of you I want to know
Where is the place we used to go?
I feel like I have been away
Just thinking of you makes me say

Hey, hey, daisy may
Where are you now I'm coming to stay

Today I'm always up and down
I need to get back to the town
Where I was introduced to you
And all the things we used to do

Every day, daisy may
Where are you now are you coming to stay?

I think of you and now I know
I've seen the place we used to go
I know that I have been away
But still I know I wanna say

Hey, hey, daisy may
Where are you now I'm coming to stay
