Step on me and I'll cut you open  
Step on me and I'll cut you open  
Step on me and I'll cut you open  
Step on me

Step on me and I'll cut you open  
Step on me and I'll cut you open  
Step on me and I'll cut you open  
Step on me

Step on me and I'll cut you open  
Step on me and I'll cut you open  
Step on me and I'll cut you open  
Step on me

Look in the mirror  
I play with my hair  
It's long and It's lovely  
And lavish and fair

I comb it and stroke it  
And wash it all day  
It makes me so sexy  
Yeah, that's what they say

Look at my body  
It's long and It's lean  
It sure may be pretty  
But boy am I mean

Paid all those bogans  
And, God, they're obscene  
They'll never touch  
My big bacon machine

Rocking and rolling  
And looking real good  
Slamming and banging  
My head like I should

Now don't you mess with me  
I might start a fight  
I've got some ripped jeans  
Look so cool and so tight

I love your attention  
When you hold me near  
Now shut up and buy me  
Some smokes and more beer

I know that you love me  
And I love me too  
But what you don't know is  
That I'm using you!

Talk to me and I'll make you sick  
Talk to me and I'll make you sick

Talk to me and I'll make you sick  
Don't talk to me

Talk to me and I'll make you sick  
Talk to me and I'll make you sick  
Talk to me and I'll make you sick  
Don't you talk to me!
