

Reach For the Sky

Spiderbait

You took to looking in the devil's eyes
When he was calling, gave you the prize
You got the powers to annihilate
Show em all what the love is making
Show them all that a storm is taking this fight

Reach for the sky
Fire in your eyes

Now you're a demon with lightning pulse
Calling out your makers, propose a toast
Now you can show off these powers you have
They'll see what the love is making
There'll be cops that'll coming kneeling on down

Reach for the sky
Fire in your eyes

Reach for the sky

You'd better run for your life

It means for nothing to sell your soul
If it means for hoarding things you own
No one can stop you, they don't wanna try

Cause they see what the love is making
No cop's gonna overcome this hellfire

Reach for the sky
