You're my honeybee  
I like you and you like me  
It's easy can't you see  
So won't you get up and dance with me

Yes I'll be waiting there for you  
Yes I'll just be waiting there for you

Downtown is where it's at  
Don't forget to bring your coat and hat  
Take me out for tea  
There's a little place that I know you might like to be

Yes I'll be waiting there for you  
Yes I'll just be waiting there for you

Hey! I haven't got all day  
Turn off the microwave  
I'll dump the vacuum cleaner  
Alright! My feet are feeling light  
Let's step on out tonight  
I think I've got the fever

Yes I'll be waiting there for you  
Yes I'll just be waiting there for you
