

## My Problem Now

Spin Doctors

I don't mind when you kiss and talk  
It's so sweet when you chew gum and walk  
The other boys they watch you pass  
And wish that they were in your class

I stole you from my ex-best friend  
Now I wish I could give you back again  
I thought that I was just so smart  
I stole your hand but you stole my heart

I guess you're my problem now  
You're gonna get me in trouble and you don't care how  
Much I love you, you make no vow  
I guess you're my problem now

When I Leapt before I looked  
I bit the bait around the hook  
I wish I hadn't wished for you  
'Cause I wished off more than I could chew

I guess you're my problem now  
You're gonna get me in trouble and you don't care how  
Much I love you, you make no vow  
I guess you're my problem now

I don't know if you'll keep me round  
Or keep me down  
I fought and now I'm caught  
In the threads of the web I wound

The other boys they give me looks  
When I walk you home and carry your books  
You're so good but you're so bad  
The best bad time I've ever had
