

Distorting A Code

Spinnerette

I don't need the answers
When I got no place to go
All I need is a riddle, and some visionary hope
I don't need the answers
When I got no place to go
All I need is a riddle, into visionary hope

How do I find my way back home?
How do I find my way...
How do I find my way back home?
How do I find my way home?

I've received a message
Just to live and let go
But the past it tangles into everything I know

Oh, I've received a message
Just to live and let go
But the past it tangles into everything I know

How do I find my way back home?
How do I find my way...
How do I find my way back home?
How do I find my way home?
