Spinnerette

```
I don't need the answers
When I got no place to go
All I need is a riddle, and some visionary hope
I don't need the answers
When I got no place to go
All I need is a riddle, into visionary hope
How do I find my way back home?
How do I find my way...
How do I find my way back home?
How do I find my way home?
I've received a message
Just to live and let go
But the past it tangles into everything I know
Oh, I've received a message
Jut to live and let go
But the past it tangles into everything I know
How do I find my way back home?
How do I find my way...
How do I find my way back home?
How do I find my way home?
```
