

## Valium Knights

Spinnerette

Harvey Oswald's' dead and gone  
He took the last train out of town  
One minute man has cocked his load  
Yes baby, rooster on parole

Fall into an abyss  
Won't you give me, just one last kiss  
Valium knights in my bed  
Only now, he's a vagrant in my head  
Golden love is holding on  
Holding onto what we had before

JFK's sun went down  
He left the thorns of fallen crown  
Marilyn Monroe's come I'll swallow  
She is the guts, the glory, sorrow

I'll take it all, give me more  
I will be your hero and your whore  
Valium knights in my bed  
Only now, he's a vagrant in my head  
Golden love is holding on  
Holding onto what we had before  
Loneliness, twilight's gone  
I don't understand where we went wrong
