Big Head

Spirit of the West

Don't let me spend my career Wound up in a bell jar the pop star gone too far Don't let me end up in here A self-centered spaceman out orbiting graceland Hey check out my placeman This is disgraceland I don't want to be the man with the big head Never let me be the man with the big head I'd rather live John Burrow's life instead Of being the man with the big head Don't let me take up the fight Receive benediction from president nixon Don't leave me too long in the lights I'll drop like the king wearing lcarus wings Lights do funny things to some Lights make my makeup run I don't want to be the man with the big head Never let me be the man with the big head I'd rather live John Burrow's life instead Of being the man with the big head I hope that you'll never see Me shirtless and groovy, in love in be movies And when I talk about me You'll know things have worsened When I'm in the 3rd person I'm some other person I'm somebody's purse and I don't want to be the man with the big head Never let me be the man with the big head I'd rather live John Burrow's life instead Of being the man with the big head
