

Darlin' If

Spirit

Darlin' If you would love me
And if you know how I feel
If you do anything for me woman
Could help me understand
And help me live again
Darlin it would never never be the same
Without you

Now that you know how i feel
And you know that what you see is real
Would you do anything for me woman
To help me understand
And help me live again
Darlin it would never never be the same
Without you

Now that you know how i feel
And you know that what you see is real
Would you do anything for me woman
To help me understand
And help me live again
Darlin it would never never be the same
Without you
