

## Darlin' If

Spirit

Darlin' If you would love me  
And if you know how I feel  
If you do anything for me woman  
Could help me understand  
And help me live again  
Darlin it would never never be the same  
Without you

Now that you know how i feel  
And you know that what you see is real  
Would you do anything for me woman  
To help me understand  
And help me live again  
Darlin it would never never be the same  
Without you

Now that you know how i feel  
And you know that what you see is real  
Would you do anything for me woman  
To help me understand  
And help me live again  
Darlin it would never never be the same  
Without you
