

## Cosmic Romance

## Spiritual Beggars

Power up the electric lady  
lick her spasmic skin  
stick one finger into her mouth  
wet her up for a carnaval  
Let luna set fire to our souls  
Red wine won't escape our tounge  
kiss scars of yesterday goodbye  
let the romance kick off  
Our minds are cristal clear  
don't mind the silver lace  
there's no limit for souls in love  
cosmic romance kick off
