

## Dead Weight

Spiritual Beggars

One time, pushed your luck too far  
No game, without a number one  
Last call, never cared for less  
Free fall, forget the one you love

Turn around and face the sun  
Walk another mile  
Hear me out, I'm the loving kind  
I'm fighting all this

Deadweight  
Living your lie  
Deadweight  
Wasting my time  
Heart's grown cold, your mind's gone old  
The spark is gone, guess I stayed too long  
Deadweight  
Dragging me down

Homegrown, final journey home  
Long gone, spot the restless soul  
One down, deny the state you're in  
Stand tall, there's no second chance
