

## Star Born

## Spiritual Beggars

Sitting here watching the sun  
Melt into a golden sea  
It fills me with wonder  
Of life's ever growing mystery

You're living on borrowed time  
Pick up your self esteem  
And start living your dream

We are star born  
Ready to burn!

Try to not dwell on the bad  
It'll only end up driving you mad  
Nothing better than to see you smile  
Blessed by a ray of the sun
