

Life Is a Problem

Spiritualized

Jesus won't you be my radio
Broadcast direction where I got to go
Send me your signal and I will receive
Jesus please be there to take care of me

Jesus please be my automobile
Won't get to heaven 'less God's at the wheel
Send me your chauffeur and I will get in
Jesus please drive me away from my sin

And I won't get to heaven
I won't be coming home
I will not see my mother again
'cause I'm lost and I'm gone
And this life is too long
And my willpower's never too strong

Jesus please be my aeroplane
Fly me to heaven and ever again
Will I be weak-willed, stoned, or get high
Jesus please meet me the day that i die

Jesus please be my bullet and gun
Shoot all the sinners down, every one
Kill all my demons and that will be fine
But I will be reloading all of the time

And I won't get to heaven
I won't be coming home
I will not see my mother again
'cause I'm lost and I'm gone
And this life is too long
And my willpower's never too strong
