

You were born on a black day
Shot through with starlight
And all the angels singing
Just about got it right
Cut through with silver
And goodness and heaven knows
I don't know where we're going
Darling where's your soul

Baby you set my soul on fire
I got two little arms to hold on tight
And I wanna take it higher
Baby you never should say never
I got a hurricane inside my veins
And I wanna stay forever

Sweetheart it may not be easy
But we're trying hard to hold on
Trying to make it better
Sweetheart you get so much freedom
But freedom is just another word
When you've no one left to hurt

And I said baby you set my soul on fire
I got two little arms to hold on tight
And I wanna take it higher
Baby you never should say never
I got a hurricane inside my veins
And I wanna stay forever

Baby you set my soul on fire
I got two little arms to hold on tight
And I wanna take it higher
Baby you never should say never
I got a hurricane inside my veins
And I wanna stay forever

I've got two little arms to hold on tight and I wanna stay forever
I've got a hurricane inside my veins and I wanna stay forever
