

## Am I Ready?

Spitalfield

Hit that clock and step out of sleep  
It's a brand new day  
You've got someone to be and that someone is you (that someone  
is you)  
When you do something, you give it full heart  
You're right through the door with a running start  
When you fall asleep tonight and you ask the question:  
"Am I ready?"  
Yes, you're ready  
Would you pause the world for it?  
Would you drop your life now?  
"Am I ready?"  
Yes, you're ready  
If anyone can, I knew you could  
You make that brand new shirt and tie look good  
And I knew you would (I knew you could)  
Don't ever say you'll never live the life you dreamt you'd lead  
Lay me down
