

I Loved The Way She Said L.A.

Spitalfield

Say the things you say
And you're dreaming like you do
You know sometimes circles run around you
Hey now, let's be honest
I really think it's true
You know sometimes we all bend the rules

You run with life
You've been around
You love to live to hate this town
And I hope and dream
Just like you do
Yeah we've been here twice before
You want it to mean so much more
And I hope that everything goes through

She goes to California
Oh, California's not so far
When I close my eyes and wonder where you are
And you wish upon a star
2,000 miles doesn't seem so far

You play the games you play
You win sometimes you lose
You know sometimes walls run into you
Now you've got me thinking
And I really think it's true
The sun shines sometimes just for you

You run with life
You've been around
You love to live to hate this town
And I hope and dream
Just like you do
Yeah we've been here twice before
You want it to mean so much more
And I hope that everyhting goes through

She goes to California
Oh, California's not so far
When I close my eyes and wonder where you are
And you wish upon a star
2,000 miles doesn't seem so far
