

On The Floor

Spitalfield

Just one last aspiration
Let's sit right down and watch it fade
Tonight, is going nowhere

Lift me off the concrete, save me

Please, put me back down on the floor
And run me right over
Take this, explain it
Nothing seems to make sense anymore
Anymore

I am dying for a sign
What's been running through your mind?
Don't just smile at me and act like it's ok

Why can't we be never-ending?

Please, put me back down on the floor
And run me right over
Take this, explain it
Nothing seems to make sense anymore
Anymore

Just tell me where it is you want to go
And if I let down then I won't let it show
And if it's over then why can't you say so?

Please, put me back down on the floor
And run me right over
Take this, explain it
Nothing seems to make sense anymore
Anymore
