

## On The Floor

Spitalfield

Just one last aspiration  
Let's sit right down and watch it fade  
Tonight, is going nowhere

Lift me off the concrete, save me

Please, put me back down on the floor  
And run me right over  
Take this, explain it  
Nothing seems to make sense anymore  
Anymore

I am dying for a sign  
What's been running through your mind?  
Don't just smile at me and act like it's ok

Why can't we be never-ending?

Please, put me back down on the floor  
And run me right over  
Take this, explain it  
Nothing seems to make sense anymore  
Anymore

Just tell me where it is you want to go  
And if I let down then I won't let it show  
And if it's over then why can't you say so?

Please, put me back down on the floor  
And run me right over  
Take this, explain it  
Nothing seems to make sense anymore  
Anymore
