

Restraining Order Blues

Spitalfield

It's a cold night;
But I warm up as you walk by.
And I'm watching you,
I always do.
And it's alright;
I've dreamt this dream a thousand times...
And this time I know what to do.

Where do we go?
I don't want to wake up.
Spinning in slow motion
As we fall apart.
Where do we go?
I don't want to wake up.
Spinning in slow motion
As we fall apart.

You can throw out the instructions --
We don't need them anymore.
I know where we are going
If I could just get out the door.
You've got your perfect hands, over my nervous heart.

I could never act this way again,
Could never feel this way again;
Not afraid of falling (down).
Wait up with the sunrise,
I cannot blink while looking into your eyes.
Talk to me so beautifully.

Where do we go?
I don't want to wake up.
Spinning in slow motion
As we fall apart.
Where do we go?
I don't want to wake up.
Spinning in slow motion
As we fall apart.

You can throw out the instructions --
We don't need them anymore.
I know where we are going
If I could just get out the door.
You've got your perfect hands, over my nervous heart.

I can't feel...
When I breathe you in,
