

So I Heard You Joined A Convent

Spitalfield

You picked up your favorite dress
Made yourself up your very best
I know you're trying to be
Anyone's everything
I know you're dying to be
Broken and let down by me

(2x)

With those eyes that you throw me
And those lines that you sold me
I can't break if I don't bend
And she's not coming around again

(2x)

You know you've gotta leave
Get up get up get out
And don't be safe
Find yourself and your way there

Fall in fall out
And than jump in again
I'm not running I'm just walking faster
Don't let this keep you down
Why do that to yourself
What could you be after

(2x)

With those eyes that you throw me
And those lines that you sold me
I can't break if I don't bend
And she's not coming around again

(2x)

You know you've gotta leave
Get up get up get out
And don't be safe
Find yourself and your way there

(2x)

You know you've gotta leave
Get up get up get out
And don't be safe
Find yourself and your way there
