

## The Yearbook Song

Spitalfield

Should i sign your yearbook now  
Bringing closure to this all  
From this pen shakes my hand  
And i raed what you said  
As it spins around my head  
And i hope you understand

Went until my head spins off again  
Wish i was seven years again  
Went until my head spins off again  
Wish i was seven years again

The time is right upon us now  
Until next time is not this fall  
And i hope things don't change  
And i read what you said  
As it spins around my head  
And i hope you understand

Went until my head spins off again  
Wish i was seven years again  
Went until my head spins off again  
Wish i was seven years again

I can't stand this half-baked ending  
I know that you're undertaken  
My heart breaks while your hearts' mending

Went until my head spins  
Went until my head spins  
Went until my head spins off again  
Wish that i was seven years again  
Went until my heads spin off again  
Wish i was seven years again

Went until my head spins (5x)  
Went until my head spins off again  
Wish i was seven years again
