

# Won't Back Down

Spitalfield

(Won't back down, really can't turn around,  
there's no stopping now, no stopping now, I won't quit...)

It's funny how we communicate  
With words on paper in rhythm  
Time is lending a hand to fate  
So slow down, slow down and please  
Don't ask me why I'm here  
Just believe it

And no I won't back down, I really can't turn around  
There's no stopping now, no stopping now  
I won't quit on you

(Won't back down, really can't turn around,  
there's no stopping now, no stopping now)

And I can't be sure of myself when I'm taking all the chances  
Are you counting imperfections,  
Are you holding out for someone else to hold on to?  
Are you?  
Are you?

Up the stairs with the lights down low  
Are you on somebody else's mind tonight?  
You feel so right to me  
I can't be held accountable  
My heart is unpredictable

And no I won't back down, I really can't turn around  
There's no stopping now, no stopping now  
I won't quit  
And I'm not quite sure, I haven't been here before  
Please don't let me down  
Please just show me how to live without you

Won't back down, really can't turn around  
(I can't be, I can't be) there's no stopping now, no stopping now  
Won't back down, really can't turn around  
(I can't be, I can't be) there's no stopping now, no stopping now  
Won't back down, really can't turn around  
(I can't be, I can't be) there's no stopping now, no stopping now  
Won't back down, really can't turn around  
(I can't be, I can't be) there's no stopping now, no...

And no I won't back down, I really can't turn around  
There's no stopping now, no stopping now  
I won't quit  
And I'm not quite sure, I haven't been here before  
Please don't let me down  
Please just show me how to live without you
