

Halfway Down The Sky

Splender

You've been pushing but I don't agree
Cause there was nothing ever here for me
If you could see the circles in my eyes
I tried
Let's get this whole thing out

I cannot be responsible
I don't care
I cannot be responsible
For you
Do you know where you are?

God I can't believe that I'm still here

And it's purpose wasn't very clear
I'm gonna take the time to wash away
This day
Let's get the whole thing out

With all I have and all you know
Don't trust me cause I'll hurt you so
As simple as a syllable
Be tired of my kind
