

Happier This Way

Splender

You try to scream into the megaphone
You try to call me on the telephone
While I'm sinking at the bottom
And you don't even know my name

First you tell me it was copacetic
Then you tell me that was hypothetical
While I'm choking at the bottom
And you don't even know my name

But I'm happier this way
I found God he dropped me yesterday
But I'm happier this way
I'll try harder now to disobey
But I'm happier this way

You try to hold me on the dirty floor
You try to kiss me with your cold sores
While I'm burning at the bottom
As you're blowing along the flame

But I'm happier this way
I found God he kicked me yesterday
But I am happier this way
I try harder now to disobey
But I am happier this way

I'm a leech
I'm a lie
I believe all the hype
What I need, I'm denied
Water me as you waste my time

So you tell me that you really care
But I notice that you're never there
While I'm fucked and at the bottom
And you don't even know my name

But I'm happier this way
I found God, he beat me yesterday
But I'm happier this way
I try harder now to disobey
But I'm happier this way
Happier this way
