

## Space Boy

Splendor

I won't tell you my name  
I avoid all those things  
All together  
I'm so high

Well I know it was dumb  
Staring right at the sun  
Stoned forever

Well it won't be the first or the last time  
The world passes by

I'm a spaceboy  
I don't want to be found  
I'm a spaceboy  
So stop holding me down  
And I'd love  
If I never returned to the ground

Well can we still be friends?  
Well I guess that depends  
How's the weather  
From so high?

Well I know it's a shame  
Why do you cause all this strain  
All together

Well it won't be the first or the last  
Time I wanted to try

I'm a spaceboy  
I don't want to look down  
I'm a spaceboy  
I've been floating around

And I'd love  
If I never returned to the ground  
I can see all the world going by

I'm a spaceboy  
I don't want to be found  
I'm a killjoy  
So stop dragging me down  
And I'd love  
If I never returned to the ground
