

# Wallflower

Splendor

Two more days is all you ever wanted  
Paint your face it's time to be social  
Standing on the edge of your feeling so special  
Looking at the center of a downward circle

It's a side we offend, it's the work of a fool  
It's the sign of a freak, uncool

Nobody understands wallflower, nobody gives a damn wallflower  
Cannot get into you look what you made me do, down, I'm so down  
If you kiss the dirt well then you'd see my reflection

Look around and I start to laugh  
No more need for photographs  
Was there something you meant to say  
As I walked away?

It's the way we collide, it's the way we connect  
It's the way we confuse, so rude

Nobody understands wallflower, nobody gives a damn wallflower  
Cannot get into you look what you made me do, down, I'm so down  
If you kiss the dirt well then you'd see my reflection

Nobody understands wallflower, nobody gives a damn wallflower  
Cannot get into you look what you made me do down, I'm so down  
If you kiss the dirt well then you'd see my

No one will want from you, haven't you got a clue?  
Cannot get over you look what you put me through

Down, I'm so down  
If you kiss the dirt well then you'd see my reflection  
Down, I'm so down  
If you kiss the dirt well then you'd see my intentions  
Down, I'm so down  
If you kiss the dirt well then you'd see my aggressions  
Down, I'm so down  
If you kiss the dirt well then you'd see my pretensions
