

Cakewalk on Easy Street

Spock's Beard

Wednesday

It's suppository time again

Ain't it grand?

Friday

I get my leg back on again

I'll get to stand

'Cause it's a cakewalk on easy street

It's a new kind of day

It's a good time

The best you ever had

It's the new-fangled way

Air-raid

Sirens in the night again

Not far away

I'm failing

At everything I try to win

But that's O.K.

'Cause it's a cakewalk on easy street

It's a new kind of day

It's a cakewalk on easy street

I have nothing bad to say

'Cept all my friends have gone away

Half of me is plastic and wood

But at least I've got my arms - that's good

'Cause it's a cake walk on easy street

It's a new kind of day

It's a good time

The best you ever had

It's the new-fangled way

It's a cakewalk on easy street
