

Don't Go

Spoken

(Verse)

Just let your rise close now
I'll be here when you wake
Maybe I knew all along
Just what I needed to say

(Verse)

So now it's said and done
My heart is yours again
Forsaken everything
My love I'm yours I creed

Remember me, Remember me

(Chorus)

Close your eyes remember me
The way that I was before
I can't let go
I'll never make it alone
Just stay with me
And we can weather the storm
Say you love me
Stay please don't go

(Verse)

I thought I knew it all
What you were asking me
Instead of being strong
Life got the best of me

(Verse)

When all the groan is gone
And temptes turn to lies
I come with no excuse
I threw away the time

(Chorus) x2

Close your eyes remember me
The way that I was before
I can't let go
I'll never make it alone
Just stay with me
And we can weather the storm
Say you love me
Stay please don't go
