

# Take Everything

Spoken

(Verse)

I can't remember the last time I was so confused  
I gotta look in your eyes but I can't look at you  
I never been to where you are sometimes it seems so far away  
Should be looking beyond the stars  
Another life another diamond on the place

(Chorus)

There's more than love on the line  
I'm begging you for life  
Take what you want from me  
Take it all the air inside of me  
My heart is just for the taking  
Take what you want from me  
Take it all the you are my everything  
My heart is just for the taking  
Take everything ,take everything

(Verse)

Do you remember the first that I  
Asked you for your hand  
I tried to look into your eyes  
And I promised I'd be a better man

(Verse)

I've never been to where you are  
Sometimes it seems so far away  
You should be looking beyond the stars  
Another life another diamond on the place

(Chorus) x2

There's more than love on the line  
I'm begging you for life  
Take what you want from me  
Take it all the air inside of me  
My heart is just for the taking  
Take what you want from me  
Take it all the you are my everything  
My heart is just for the taking  
Take everything ,take everything
