

The Meaning Of...

Spoken

Good morning my love, I was just dreaming about you
You are all that is beautiful
Everything that I hold dear, you are the better part of me
Apart from you there's no other, there will never be another

I never knew it could be so easy to love
Until I put my arms around you, that's when I knew that it was
Love is so often hard to find
Now that you are mine, I'm holding onto you, holding onto you

Good morning my son, I was just thinking about you
Greet the morning with a smile
Spread your arms and reach for the sky, everything is new
Today everything is new
Now you are mine, I'm holding onto you my love
There is no other, there will never be another, now you are mine
I have found the meaning of love, the meaning of love
