

# You're The One

Spoken

Baby, does it bother you that I watch you when you sleep?  
Maybe we should stay here for a while and dream  
I'd never think of letting go

I'll be the only one that you will ever need  
I'll be the one who's right there  
I will be your dream

One day, I will take you far away  
Just you and me  
Maybe, you would take me by the hand and be mine  
I'd never think of letting go  
I will never let you go

I'm the one that your heart will love  
You're the one that my heart is dreaming, my heart is dreaming  
I am the only one that you will ever need  
I'll be the one who's right there, I will be your dream
