

# Live Here Without You

Sponge

Take my lips and sew them shut  
Without words I'll dry up and blow away  
She said that we were both so out of touch  
And when we talked we'd say things  
That don't mean anything  
I hear your voice but you're so far away

I can do without these things  
But what I can't do  
Is live here without you  
Live here without you  
Live here without you

I can't kiss you anymore  
I can't miss you anymore  
Love's not easy to ignore  
When your heart likes bleeding on the floor  
I'll just sit and count the days  
The days until you'll be mine

I'll take in air and I'll fill it up  
Never breathing out I'll burst in flames  
Without you I can never get enough  
Of the thing that makes me feel like  
Life's worth anything  
I feel your touch at the thought of your name

I can do without these things  
But what I can't do  
Is live here without you  
Live here without you  
Live here without you

I can't kiss you anymore  
I can't miss you anymore  
Love's not easy to ignore  
When your heart likes bleeding on the floor  
I'll just sit and count the days  
The days until you'll be mine

I don't want anything  
Like a Jesus or a Superman  
I don't want for anything  
If you could be here with me again

I can do without these things  
But what I can't do  
Is live here without you  
Live here without you  
Live here without you

I can't kiss you anymore  
I can't miss you anymore  
Love's not easy to ignore  
When your heart likes bleeding on the floor  
I'll just sit and count the days  
The days until you'll be mine

I can't kiss you anymore  
I never felt alone like this before  
Love ain't easy to ignore  
I just can't live here anymore  
Time is killing me and I'm killing  
Nothing but time
