If I was dirt that filled up your life If I was dirt, so pure and so refined I'd be the dirt that That blackened all that shined

Which one would show a purity? Which one could show how curious This purity has been?

My purity, my purity My thoroughness, my purity My purity, my purity My thoroughness, my purity

My purity, my purity
My thoroughness, my purity
My purity, my purity
My thoroughness

If I was dirt that would make you lie Could I be dirt in your irreverent smile? Please pass the dirt I'll have some on mine

Which one would show my purity? Which one could show how curious This purity has been?

My purity, my purity My thoroughness, my purity My purity, my purity My thoroughness, my purity

My purity, my purity
My thoroughness, my purity
My purity, my purity
My thoroughness

Drag me down and plough me under Nothing stays the same Drag me down and plough me under Nothing will ever change

If I was the dirt you brought
Through your doorstep
Did that dirt leave you feeling molested?
How was that dirt that you've ingested?

Which one would show my purity? Which one could show how curious This purity has been?

My purity, my purity My thoroughness, my purity My purity, my purity My thoroughness, my purity My purity, my purity

My thoroughness, my purity

My purity, my purity

My thoroughness, my purity

My purity, my purity

My thoroughness, my purity

My purity, my purity

My thoroughness, my purity $% \left(1\right) =\left(1\right) \left(1\right$

My purity, my purity

My thoroughness, my purity
