# Rainin'

**Sponge**

Now and forever
The moment is gone and
Time runs out
Then it hits you with the
Pain
Things are great on the
Way up
But nobody is with you
When you're on the way
Down
You got what you wished
For
Is that what you really
Wanted
It's how I think of you
Raining in my

Indecision
Problems that took years
To build and build
And admission is too far
Away
Life in a blackout
Is like life in a storm
When you finally come out
You see that you're all
Alone
You got what you wished
For
Is that what you really
Wanted

The day you break is the
Day you're born
Then you deal with the
Blame
Is that what you wished
For
Is that what you really wanted
