

Advance Cassette

Spoon

Getting caught's made me think it over
And it told me that you're never coming back here again
We've been doing things the same way for so long
That it took me aback
But I don't think I'll ever hear that sad song again
Now don't tell me I've lost you, advance cassette, oh no
I just can't believe it
No, don't say that I've lost you, advance cassette, oh no
I just can't believe it
Advance cassette
Advance cassette
Advance cassette
You'll know by the look on their faces when they pass you
You've been dropped off on the Texas highway
I've been out here now for so long
That I'm not sure how you wound me so tight
I'm afraid I won't ever hear that sad song again
So don't tell me I've lost you, advance cassette, oh no
I just can't believe it
No, don't say that I've lost you, advance cassette, oh no
I just can't, can't, can't, can't, can't, can't believe it
