Don't Let It Get You Down

Kay made it to where most never been Fixed up outside and broke within She always said goodnight Knowing wrong from right

But on the way the top They showed her things she never thought And left her down in the dumps All day and all of the night

Don't let it get you down Kay grew up without making a sound But skipped ahead to settled sown Aw won't you come out tonight Don't let it get you down

Spoon
