

## Inside Out

Spoon

Time's gone inside out  
Time gets distorted with  
This intense gravity  
I don't got time for holy rollers  
Though they may wash my feet  
And I won't be their soldier

There's intense gravity in you  
(There's intense gravity in you)  
I'm just your satellite  
(I'm just your satellite)

Ooh, and I know that time's gone inside out  
And now it's only like I told you  
Mmm, though they may wash my feet  
They do not make me complete

Break out of character for me  
Time keeps on going when  
We got nothing else to give  
We got nothing else to give

Ooh, cause our time's gone inside out  
I don't make time for holy rollers  
Mmm, there's only you I need  
They do not make me complete
