

# The Beast and Dragon, Adored

Spoon

The beast and dragon, adored  
You been gone so long  
Where you been for so long  
I went to places unknown  
Rented a room  
And i forgot my pen  
Shook my twin  
And I had to find the feelin again

Now all I need is a crew  
One that can act as if  
One that can slay on cue  
And sneeze and sniff  
Uh-huh alright  
I'm going back to the water  
Been landlocked too long

I got a feelin it don't come cheap  
I got a feelin oh and then it got to me  
It took its time a-working into my soul  
I got to believe it come from rock and roll  
Believe it come from rock and roll

Where did you get for so long  
I been learning my scene  
I been watching my friends move away  
I summon my love back to me  
And I went down by the seawall  
That's when I knew, knew They Never Got You

Great dominions, they don't come cheap  
Great dominions, they just want you to leave  
I got the meaning the meaning sat tight  
Said it's not what you expected but it could be right

I got a feelin it didn't come free  
I got a feelin and then it got to me  
When you don't feel it it shows they tear out your soul  
And when you believe they call it rock and roll
