

# The Ghost of You Lingers

Spoon

If you were here  
Would you calm me down?  
You settled this part  
Feelings I fight (all the strangers in town)  
Feeling so bright (would know if you were here)  
The feelings I fight (would you ease my mind?)  
Yeah (Come on!)

The sleep fled from my eyes  
And I, I know that I need some  
Give a thought to the one that you know

Or would you calm me down  
When the night gets shadowed  
We fast

We put on the clinic  
If you were here  
It felt good to me  
(would you calm me down)  
Can't see I'm losing it  
Must have set up the scene  
(The man asleep knockup)  
Put on a clinic  
(I see it) But I will need to write  
(we settled this part) They're all alive

Oh, would you ease my mind?  
Yeah

(The ghost of you lingers)  
Put on a clinic till we hit the wall  
(And leaves)  
Just like a sailor with his woools beat soft  
Come on

I had a light bad noon that could be put back together

My life  
So light  
Would you settle this part?

If you were here  
Would you calm me down?

The ghost of you lingers  
And leaves  
I always think about it  
Oh, would you calm me down?
